NOTE 1: The format column identifies the formats used by the society. In many cases we are unable to specify the actual format used for each title unless that information has been supplied in the society newsletter or program..

NOTE 2: RI = Rating Index is derived by all audience members voting from A - E  
Then add up the number of A votes plus 0.75xB votes, plus 0.5xC votes plus 0.25xD votes, (ignore the E votes) divide by the number of votes and express as a percentage.
