ACMI DVDS AVAILABLE FOR SCREENING BY FILM SOCIETIES

ACMI Lending Collection has recently acquired titles in DVD format that will be available for loan to Film Societies by the middle of February 08. Special rights negotiations for these titles for a 'non-paying audience' have been cleared thereby allowing use of these award winning film titles in Society programs.

ACMI are attempting to negotiate with distributors for broader licences when they make DVD acquisitions. The response has been generally positive, although ACMI were not successful with some. They assume this reflects the increased emphasis on DVD sales as a revenue source for distributors.
